Discussion:

DECK:

- Walked through slide deck we had for Greg and Kim, in order to get David's feedback.
- David giving us suggestions on how the deck needs to stand on its own, and said it was good for a fresh set of eyes to have a look.
- Helped us realize we needed to narrow our focus in some of the areas
- Zoom in on what the app is actually going to do in our slides

Web Site:

- David thought the navigation with the multi-levels of sub menus was awkward, and he almost missed some content because he didn't realize he had to hover to expand the menus- found that by "accident"
 - Helen will work with Elaina on making the navigation easier
- Needs more visuals – (we knew that)

Mobile App

- We need to be sure to differentiate ours from the NHL app
- What makes ours different
- Why will people come back to use it?
- Consider partnerships

Conclusions:

Pleased with our progress. We will keep his suggestions in mind
