

Meeting Notes

Key Points:

- Deliverable Bucket 1 Feedback
- Competitive Analysis Visualization
- Trouble adding everyone to the site
- Mixed advice on project from professors

Summary:

The meeting with the Capstone Advisors began on Monday September 19th at 7PM. The first round of deliverable feedback was mostly focused on creating a dynamic project plan to keep the team focused on upcoming deadlines. The team expressed frustrations with the feedback from the other professors regarding the project plan as a whole. Amy & Rebecca asked that we meet separately with those professors to explain the project verbally. Capstone Advisors appreciated the efforts being placed in the website to make a cohesive project direction.
