### Summary:

The meeting with our Capstone Mentor was Sunday September 11th at 8PM. After introductions, the team explained the vision for FashionEye. Lori wanted to know where the team would like her to help. The team agreed that reviewing project deliverable before the due dates would be supportive via Google Docs. A majority of the meeting was focused on weighing the pros and cons of two distinct revenue plans. The team settled with the integration of the technology into a established application.
